

AXEL

F1050-PBR/SBK

Departing from a conventional chandelier layout, Axel presents an innovative design with a simplified construction. Shaded lamps are distributed at each axis of the rhombus-shaped frame with arms stacked together and arrayed at 120 degrees. The metal framework is Soft Black, complemented by Patina Brass socket cups and reflectors. The stylish perforations on the shades serve a dual purpose, adding a decorative element while creating an interplay of light on both sides of the fixture.
